\$219	\$245	\$325	\$455	POA

NOTE: It is the customers responsibility to silicone seal the shed to a concrete slab at the base.

This should be done with silicone sealant on the inside of the shed only. (DO NOT seal on the outside of the shed).

When preparing a concrete slab we recommend that your slab be made at least 100mm bigger than the shed ordered.

All CWS products are supplied in pre-fabricated panels and come with easy to follow instructions, and self-tapping screws for easy D.I.Y. installation.

All sheds, etc, must be securely fastened to the ground or slab. Shed sizes are approximate and can vary several millimetres either way.

All sizes are approximate. All sheds come as standard with a single sliding door (approx. 720mm wide).

Deliveries and installations will not be performed in windy or rainy conditions.

All sheds have a roof overhang of approximately 100 - 130mm. Pick-ups must be collected on the day arranged otherwise will have to be re-ordered for new pick-up date.
